AEA Federal Credit Union Receives 2017 Datatrac Great Rate Awards

Yuma, AZ, September 7, 2017 – AEA Federal Credit Union was recently certified with 2017 Datatrac Great Rate Awards® for several deposit and loan products. The Award is issued to financial institutions that outperform the market average based upon independent analysis conducted by Datatrac, a financial research firm which maintains America’s largest interest rate database.

Datatrac certified that AEA Federal Credit Union offered 20 consumer banking products that outperformed the market average by up to 270%. Current results of this research and a list of Award winning products can be found by visiting <https://www.aeafcu.org>.

“Our members are our number one priority. We’re committed to providing them with competitive financial products and services that can make a difference in their financial life,” said Adele Sandberg, President and CEO. “Datatrac is a great help with value-driven proof that many of our rates outperform the market.”

“Datatrac Great Rate Awards certify financial institution products which consistently outperform the market. Datatrac is pleased to recognize AEA Federal Credit Union for their ability to deliver products that deliver better value to their members,” stated Ken Wanek, Datatrac Founder and President.

AEA Federal Credit Union has been building relationships since 1942. They have \$249 million in assets and more than 31,100 members with five branches serving Yuma, Somerton and Parker, Arizona. Membership is open to anyone who lives, works, worships or attends school in Yuma and La Paz counties. For more information, visit aeafcu.org.

Datatrac is an independent, unbiased research firm that has monitored deposit and loan rates, fees and product features for over 25 years. Datatrac built the largest database of interest rate data in America and maintain current interest rate data on over 100,000 banking locations in North America. Datatrac Great Rate Awards® certify that deposit and loan rates outperform the market average for comparable products. www.datatrac.net
